The Dash

by

Linda Ellis

I read of a man who stood to speak at the funeral of a friend. He referred to the dates on the tombstone from the beginning to the end.

*He noted that first came the date of birth and spoke of the following date with tears, but he said what mattered most of all was the **dash** between those years.*

*For that **dash** represents all the time they spent alive on earth and now only those who loved them know what that little line is worth.*

*For it matters not, how much we own, the cars, the house, the cash... what matters is how we live and love and how we spend our **dash**.*
