---

In the spirit of commemorating the beautiful life of the exquisite Dr. Lorraine M. Howard, we warmly invite her friends, family, and colleagues to gather in unity for a celebration of her legacy. Her journey was marked by profound connections and cherished moments with each one of you. It would be a tribute to her memory if you could bring a piece of Lorraine with you. It could be anything that holds her essence or recalls a special moment shared—perhaps an inspiring card she sent you, a voice message that captured her laughter, an email filled with her insightful thoughts and ideas, a gift that spoke of her thoughtfulness, or a simple text message that brightened your day.

This gathering serves as a special opportunity to honor the significant professional work and contributions she made to the world as a mathematician, educator and advocate. Additionally, we recognize the wisdom, empowerment and joy Lorraine imparted in every encounter, truly showcasing her as a pioneer, well ahead of her time. It's a chance for us to share stories, to laugh, and to find comfort in the legacy of love she leaves behind. We aim to create an atmosphere where warmth and affection are abundant, allowing us to partake in a meal that nourishes not just our bodies but our souls, ensuring we all depart with a smile, just as Lorraine would have wanted.

Please join us in this meaningful assembly as we pay homage to a remarkable life lived. Your presence and shared memories will contribute to a tapestry of love that celebrates the extraordinary person that Dr. Lorraine M. Howard was and continues to be in spirit. Together, let's ensure we leave this gathering carrying forward the light of Lorraine's legacy in each of our lives.

Warmly,  
Ashley R. Townes (Lorraine's daughter)
